To Whom It May Concern

This letter is to verify that Lifa Air had installed 3G filtration system to the Consulate General of Finland in Hong Kong on 3th to 6th of June 2011.

Lifa Air had submitted the installation report and we are satisfied with the result. Also Lifa Air cleaned air ducts and suspended ceilings to make sure that the result is the best possible.

Right here, we show our gratitude to Lifa Air's professional service and we also highly recommend to choose Lifa Air as your indoor air quality optimization service provider in the future.

Yours sincerely,

Annikki Arponen

Annikki Arponen
Consul-General
