Lifa Air Ltd. Hämeentie 105 A, FIN-00550 Helsinki, Finland

WHERE TECHNOLOGY/PRODUCTS HAS BEEN USED/ADAPTED

In over 100 buildings including educational establishments, hospitals, offices in the area of great Helsinki, Finland

CLIENTS

Owners of the buildings (communities, institutions and companies being served by Palmia Ltd

DESCRIPTION AND MAIN USAGE OF TECHNOLOGY/PRODUCTS

LIFA 3G FILTERS are used to improved Indoor Air Quality (IAQ) and protect people against airborne spreading diseases in buildings selected by Palmia´s clients and they are installed and maintenance by Palmia.

EXPERIENCE FROM TECHNOLOGY/PRODUCTS

End users of the buildings have been given to us very good response from Lifa 3G filters. There has been reported significant improvement in indoor air quality. Because of this positive feedback from our clients, which have exceeded even our very high expectation, we can warmly recommend Lifa Air as a company and its technology/products.
